WATER WIGGLER™

Item #4WW \$24.99

ATTRACT BIRDS - NOT MOSQUITOS!

Moving water attracts birds.

Great year-round. Works great summer and winter to attract birds.

Helps prevent the spread of West Nile virus by eliminating stagnant water in birdbaths.

WATER WIGGLER'S™ unique agitator action creates continuous ripples in water, preventing mosquitos from laying eggs in bird baths.

Easy to install. Just place in bird bath and go! No wiring and no plumbing.

Operates silently 24 hours a day on 2 D-cell batteries for up to 2 months of continual use. May be used with heated bird bath in winter to agitate the water and attract more birds.

6 month warranty.

WATER WIGGLER™ w/Sound

Item #6WW \$29.99

Same great product as above with the addition of a sound chip playing the sound of running water. Birds are attracted by running water and the sound will help draw them to your yard.

Arundale

Squirrel Proof Bird Feeders

Mandarin Sky Café

Item #AR360 **\$54.99**

The Arundale Mandarin Sky Cafe Squirrel Proof Bird Feeder features a generous 17” squirrel proofing dome that protects the seed from both squirrels and weather. When hung properly, squirrels will be unable to reach your seed. The large feeder reservoir features a 6 quart/9 lb capacity and an ample 11.5” feeding tray. The feeding tray allows up to 10 birds to feed at once and is equipped with 16 drainage holes to keep seed from spoiling. The feeder reservoir and dome are clear for high bird visibility and clear view of seed levels. Simply lift the feeder dome for quick and easy cleaning and filling.

This feeder includes a 24” chain for hanging or may be pole mounted using a 1” pole. If pole mounted, the separate Sky Café Mounting Kit serves to secure the feeder dome. We also suggest the use of a Mandarin Sky Cafe Wrap-Around Skirt to protect your pole-mounted Sky Cafe from squirrels.

This feeder is made in the USA using recycled plastic. Lifetime warranty against squirrel damage. Note: A portion of the proceeds from this bird feeder are donated to environmental causes.

Birds that use this feeder:

- Blackbirds, bluebirds, cardinals, chickadees, doves, finches, flickers, goldfinches, grackles, grosbeaks, jays, juncos, kinglets, mockingbirds, nuthatches, redpolls, siskins, sparrows, starlings, titmice, towhees, woodpeckers, and wrens.

Seed or Feed Options: cracked corn, mixed seed, peanut chunks, safflower seed, sunflower kernels, and sunflower seed.

Mandarin Feeder

Item #AR150 **\$54.99**

The original Mandarin Squirrel Proof feeder includes a 17" dome baffle to keep out the squirrels and large seed capacity. The 4 seed ports are designed for the "peck & pull" activity common among desirable song birds. Perch length discourages larger birds and can be cut shorter. Comes with 24" chain for hanging. 5.5 qt/9 lb seed capacity means less trips to fill the feeder. Made in USA. Lifetime Warranty against squirrel damage.

Aspects

Window Bird Feeders

Buffet 2-Tray Feeder

Item #002 **\$19.99**

This 2-tray window feeder allows you to use 2 different seed types to attract more variety of birds. Trays are easy to remove for cleaning. Manufactured of high impact crystal clear material. The suction cup mounting system brings birds right up to your window for close up viewing. .5 qt/.75 lb capacity.

Birds that use this feeder:

- bluebirds, cardinals, chickadees, finches, goldfinches, grosbeaks, juncos, kinglets, nuthatches, redpolls, siskins, sparrows, tanagers, thrushes, titmice, towhees, warblers, waxwings, woodpeckers, and wrens

Seed or Feed Options: cracked corn, fruit, mealworms, mixed seed, peanut chunks, peanuts in shell, safflower seed, suet, sunflower kernels, and sunflower seed.

Hummingbird Feeders

HummZinger Mini Feeder

Item #153 **\$15.99**

The HummZinger Mini by Aspects features 3 raised ports, a side fill indicator on the clear bowl, a built-in ant cup or "moat", a brass hanger, and three decorative raised flowers on the bright red cover. The flowers are raised to prevent rain from dripping into the feeder. The ant cup prevents insects from contaminating the nectar. May be hung or pole mounted on 5/8" unthreaded dowel. Easy to clean and dishwasher safe.

8oz capacity with a lifetime warranty. Made in the USA.

Brome Bird Care

**Squirrel
Buster
PLUS**

Squirrel Proof Bird Feeders

Squirrel Buster Plus

Item #1024 **\$74.99**

The Brome Squirrel Buster Plus Squirrel Proof Bird Feeder features a truly squirrel proof design. The openings in the feeder base allow birds to perch and access seed. However, when red or gray squirrels and large birds try to feed, the feeder base drops down and closes off access to the seed ports. The weight sensitive spring mechanism is completely adjustable to exclude different types of birds and squirrels. A handy chart comparing the weights of common birds and squirrels is included to use as a guide when adjusting the spring closing mechanism.

This feeder has six feeding stations with adjustable perches and comes with a cardinal ring. The cardinal ring allows the cardinals to comfortably sit and face the seed port – their preferred feeding method. Seed capacity 3 qt/4.5 lb. A unique seed ventilation system circulates air through the seed to keep it dry and fresh. The feeder assembly can be easily dismantled by hand for cleaning. The feeder base and cap are made of rustproof, green powder coated aluminum. The clear feeder reservoir is made of UV Stabilized polycarbonate plastic. Lifetime guarantee.

Birds that use this feeder:

- cardinals, chickadees, finches, flickers, goldfinches, grosbeaks, jays, juncos, kinglets, nuthatches, redpolls, siskins, sparrows, starlings, titmice, woodpeckers, and wrens

Seed or Feed Options: cracked corn, mixed seed, peanut chunks, safflower seed, sunflower kernels, and sunflower seed.

Squirrel Buster Mini

Item #1055 **\$19.99**

The Squirrel Buster Mini™ is guaranteed to be squirrel proof. Openings in the bottom of the metal mesh shroud allow birds access to the seed. When a squirrel climbs onto the feeder, its weight automatically forces the shroud down, closing access to the seed tray. Squirrels are shut out but not harmed in any way. The negative grip tube is part of our patented technology. It prevents squirrels from grabbing the wire hanger with their hind legs, hanging down alongside the feeder, and defeating the closing mechanism. Both perching and clinging birds love this feeder. The feeder also features a patented Seed Tube Ventilation System to keep seed dry & fresh.

Birds that use this feeder:

- cardinals, chickadees, finches, goldfinches, grosbeaks, jays, juncos, kinglets, nuthatches, redpolls, siskins, sparrows, starlings, titmice, woodpeckers, and wrens

Seed or Feed Options: cracked corn, mixed seed, peanut chunks, safflower seed, sunflower kernels, and sunflower seed.

Feeder Fresh

Feeder Fresh

Item #FF **\$7.99**

Keep seed fresh! Great for all tube feeders. Damp seed forms into moldy clumps—an unhealthy condition for birds—and a cleaning headache for you. Pour these fine, sand-like granules into the bottom of your tube feeder to safely absorb excess moisture. This non-toxic, inert material does not swell, or clump. Replace contents when you refill seed. 1.25 pint bottle will last for approximately 50 tube refills!

Bird Houses

Chickadee House

Item #: 10041(W) **\$25.99**

Dimensions: (12-1/2"h x 6"w x 8-1/2"d) Entrance Hole 1.125"

:

Properly sized to shelter one of America's favorite backyard birds. Opens easily for monitoring and cleaning. Chickadee - Black-capped Carolina, Chestnut-backed & Mountain Chickadee

Nuthatch House

Item #: 10042(W) **\$25.99**

Dimensions: (12-1/2"h x 6"w x 8-1/2"d) Entrance Hole 1.25"

Nuthatches are secondary cavity dwellers so they look for a nesting location that has already been established naturally or by another bird. Locate housing away from buildings in a mature forest as best protection from house sparrows

Titmouse/Warbler/Tree Swallow House

Item #: 10043(W) **\$25.99**

Dimensions: (12-1/2"h x 6"w x 8-1/2"d) Entrance Hole 1.5"

Titmice are generally comfortable around people. Prefer a natural habitat in areas with tall vegetation and a forest with a dense canopy of trees. House also suitable for Prothonotary Warblers, Tree Swallows, House Finches, Violet-green Swallows & Carolina Wrens.

Backyard Birdhouse

Item #: 10045 **\$29.99**

Dimensions: (12-1/2"h x 6"w x 8-1/2"d)

This house with a 4x4" floor is suitable for most common backyard birds including bluebirds, titmice, swallows, nuthatches, chickadees and wrens. The 1-1/2" hole is protected by a slate predator guard to ward off pesky squirrels.

House Wren House

Item#: 10046 **\$25.99**

Dimensions: (12-1/2"h x 6"w x 8-1/2"d)

With its 1" entrance hole, this house provides great protection for house wrens. Wrens are very protective, so position the nest box in less frequented areas or you might get a scolding from a disgruntled parent.

Hanging Wren House

Item#: 10047 **\$25.99**

Dimensions: (7-1/2"h x 7-3/4"w x 7-1/2"d) Entrance Hole 1"

Most birds prefer a stable house, but House Wrens don't mind a gentle movement. Hangs easily with the metal chain from a tree or bracket and opens easily for clean-out.

Window Alert

Protective Window Decals

Item #WINDA5 Hummingbird (4/pkg) **\$5.99**

First, the problem. Via BirdsAndBuildings.org (check it out!):

"Over one billion birds strike windows in the U.S. every year. It is rapidly becoming the most significant contributor to the overall decline in bird populations. Birds don't see or understand windows and reflections. Instead, they see images that signal a flyway -- and they fly into the glass."

THE SOLUTION: WindowAlerts are decals that may be applied to home and office windows. The decal brilliantly reflects ultraviolet sunlight. This ultraviolet light is invisible to humans, but glows like a stoplight for birds. The decals are static cling and may be removed or re-positioned easily.

Revenge Moth Traps, Pack of 2

Item #000703 **\$5.99**

Attract and capture various pantry moths with Bonide Revenge Pantry Moth Traps. This set of two odorless, yet powerful, traps attract and capture pantry moths that are found in flour, rice, crackers, dog food, bird seed, and cereals. Each trap uses a special pheromone lure to trap the male moth, thereby disrupting the life cycle so that egg laying ceases. Lasting for up to three months, continued use of the traps ensures that any earlier laid eggs will be caught when they emerge as adults. Because these traps are also non-toxic, they can be safely placed near food storage and food preparation areas. Protect your pantry, kitchen, or other food storage areas with Bonide Revenge Pantry Moth Traps.

Box Contents: 2 traps, 2 lures

Dimensions: 4.25"L x 3.5"W x 2.5"H

Mounting: place where pantry bugs and moths are observed

Revenge Window & Screen Fly Catchers

Item #288888 **\$2.99**

The Revenge Window & Screen Fly Catchers will attract and catch flies, gnats and many other flying pests. Ideal product for any room where you want to control flying insects without using an insecticide. Non-toxic, odorless, transparent, does not mark windows and is easy to use.

Flying insects are attracted to windows by sunlight and heat. They are soon caught on the Window Fly Catcher. Use on any window, in any room, to control flying insects.

Package of 4. The traps measure 9 inches by 3 inches.
